Notice

Assistive Technology Facility in the Central Library

It is informed to all the students, scholars, faculties and non-teaching staff of CUTN that the Central Library has been providing Assistive Technology facility for the visually impaired, low vision students and staff. The Assistive Technology facilities can be utilized with the help of available computers, hardware, software and other equipment in the Assistive Technology Space at the Digital Library Section of the Central Library.

The University fraternity are also requested to encourage such students to utilize the assistive technology facilities in the Central Library.
